Frontend Developer with professional experience in web development and hands-on experience building responsive, interactive web applications using JavaScript, React.js, HTML, CSS, and Tailwind CSS. Focused on creating reusable UI components, accessible interfaces, and engaging user experiences.

Work Experience

Jan 2025–Feb 2026

Wordpress Developer — **Stronic Media**, Vapi, Gujrat

- Developed and maintained responsive website pages using WordPress, HTML, CSS, and JavaScript.
- Customized page layouts and UI elements to meet design requirements and improve usability.
- Resolved layout issues and optimized website presentation across desktop, tablet, and mobile devices.
- Collaborated with team members to implement website updates and deliver requested changes.

Projects

Finovo (Personal Finance Tracker) | HTML5, SCSS, JS, GSAP

- Built Finovo, a personal finance management web application.
- Created a centralized dashboard to monitor transactions and spending habits.
- Implemented financial goal tracking to help users plan and monitor progress.
- Added monthly budgeting by category to encourage smarter spending.
- Developed the project to solve a real-life problem while strengthening my development skills.

Macfolio (Personal Portfolio) | React.js, Tailwind, GSAP

- Developed a macOS-inspired portfolio website using React, featuring an interactive desktop interface.
- Implemented app-style windows, desktop navigation, and a Dock-inspired UI for showcasing projects, skills, and personal information.
- Focused on responsive design, smooth animations, and an engaging user experience.

Education and Certifications

2025 – Present
